FIRE PRECAUTIONS AT WESTERLY

Board of Engineers Will Work to Lessen Risks and Dangers -Cases in Third District Court-License the Campaign Issue-Republican Rally This Afternoon.

At the regular session of the Third district court, Judge Oliver H. Williams, presiding, judgment for plaintiff was given in the case of Rufus Stiles against Ethel Burnet and Frances C.

liams presiding, judgment for plaintiff was given in the case of Rufus Stiles against Ethel Burnet and Frances C. Griscom. This case was tried Friday of last week before Clerk Clarence E. Roche in the absence of the fudge. Mr. Stiles, a builder and contractor, claimed a balance due him of \$283 from the defendants for erecting a bungalow at Watch Hill. The plaintiff was awarded the sum of \$34.50 and costs. This sum the defendants conceded was due plaintiff.

The case of Thomas H. Arnold against Charles H. Holdredge was called the matter at issue being a magneto valued at \$70. It is alleged by the plaintiff that his automobile was left at the J. Fred Barber garage for a general overhauling and painting and that the painting contract was sublet to Mr. Holdredge. Mr. Barber claims that when the automobile was delivered to Mr. Holdredge the magneto was in its place, but that when he came for the car, after the painting that the magneto was missing. Then, in the name of Mr. Arnold an action in trover was brought against Mr. Holdredge, tried in the Third district court three months ago and judgment was given for Mr. Holdredge. Having been defeated in the action

Having been defeated in the action of trover, Mr. Arnold brought suit in an action of assumpeit, introducing practically the same testimony as was given in the trover case. Samuel H. Davis appeared for plaintiff and Judge Herbert W. Rathbun for defendant. The trial occupied the attention of the court from 8 o'cleck in the morning until 3 in the afternoon. Decision was reserved.

The no-license campaign overshadows all other political issues in
Westerly. It is not a question as to
this candidate or that one will be
elected, but whether Westerly will take
its place among the dry towns in the
state. There will be a sermon in the
Seventh-day Eaptist church today
(Saturday) advocating no-license and
in the other churches Sunday. When
the liquor license question was last
before the people for action, the vote
on the question was a majority of two
in favor of license.

As a result of the joint session of the fire prevention committee of the Westerly Board of Trade, and the board of engineers of the Westerly and Pawcatuck fire districts, the authority vested in the board of engineers will be exercised as a precautionary measure against fires. Premises will be carefully inspected and every possible precaution will be taken to remove surface causes of fires, and the fire officials will proceed to the limit of their legal authority. The board of trade committee will introduce an ordinance to the town council, for adopdirance to the town council, for adop-tion that will not only extend the au-thority of the board of engineers, but will also deal with the construction of chimneys and general building within

Miss Katherine G. Price visited in New London Thursday. Julian W. Marson a reporter for the Westerly Sun, has resigned to enter the printing press manufacturing bus-iness. He is succeeded by R. Starr Barker.

The republican rally this afternoon in the Central theatre, at the conclusion of the matines will be the only one for Pawcatuck in the present political campaign.

For the first time in several years the teachers of Westerly were only listeners at the annual session of the Rhode Island Institute of Instruction. Heretofore they were foremost among the active workers and with prominent place in the order of exercises. A Westerly hunter returned from a hunt with a full game bag, but when he reached home he realized that he had left his gun behind him and he returned to the hunting ground in quest of the gun. He remembered leaving the gun standing against a tree. He found the tree, but some other fellow, to the hunter unknown had found the gun.

Sale of Red Cross Seals Proposed.

The first of November, A. R. Young will resign as active superintendent of the Ashland Cotton company's mills. It was Mr. Young's plan to leave the manufacturing business entirely, but at the earnest solicitation of the company he has decided to continue as superintendent, but in an advisory capacity. Mr. Young has been in the employ of the Ashland Cotton Co. for forty years and has been its superintendent 36 years. Earlier in life Mr. Young entered the Franklin street ermory in Norwich, where he learned the business of rifling gun barrels. After the close of the war he learned the machinist's trade in Baltic, later being employed in Meriden. Conn., with the Parker Gun Co. Before entering the employ of the Ashland Cotton Co. first to put a patent motion on a loom later as master mechanic, he worked for a time in the Slater mills machine shop. Mr. Young's record and capabilities during his long term of service as a mechanic and at the head of a manufacturing concern stand to show for themselves.

L. M. Carpenter, as assistant superintendent, is well equipped to assume the important duties that will now devolve upon him. Mr. Carpenter was employed four years in Willimantic with the American Thread Co., several years with the Chelsea File Co. of Norwich and has been with the Ashland Cotton Co. here for four years.

Dinner for Monument Committee.

The soldiers' monument committee was delightfully entertained at dinner Thursday evening as the guests of Mr. and Mrs. F. D. Ballou at their home in Sylvandale. The evening was another of the very pleasant ones the committee has been privileged to enjoy. There were stories, old and new and discussions of current topics. The choice collection of Victrola records with which Mr. Ballou entertained his guests, were of the finest and were istened to with much interest and appreciation. At the close of the dinner Thursday being Mr. Ballou's birthday, a beautiful cake was presented, all decorated with candles and fancy candies, but so generous had been the helping through the menu that the cake still remains uncut. The monument committee members are G. A. Haskel, Rev. E. M. Hayes, D. F. Finn, F. D. Ballou and E. H. Hiscox.

Are You Going to Buy a Talking Machine? If So---Read This Advertisement

THE WORLD FAMOUS

VICTROLAS

The Leaders of all Talking Machines

Much more can be said concerning the superiority of the Victrola than can be placed in this ad., but these few explanations will no doubt have you investigate our claim.

TONE, VARIETY of TONE, MODIFICATION of TONE, and SUBSEQUENT GENERAL SATISFAC-TION are the considerations on which you will ultimately make your decision.

The Victrola has the widest scope of tone control of any talking machine ever manufactured.

By means of the patented Sound Box, and tapering tubes and amplifying surfaces of the SOUNDING BOARD arrangement, a tone which is most pleasing to the most critical ear is secured.

By the NEW Victor system of changeable needles, you are enabled to vary the tone in accordance with your

A "fixed" point, always produces a monotonous one-tone quality as against variety of tone found in the

Again something must wear either the point or record and we believe that our customers would prefer to wear out needles at 5c per hundred than records at 75c, \$1.00 and \$2.00 each.

As far as acoustic principles and cabinet designs and workmanship of the Victrola are concerned, you need only compare the Victrola side by side with any instrument on the market and your own good judgment and musical taste as to which is the better will make a decision easy.

And do not overlook the FACT that after you have procured your talking machine you want an unlimited supply of records to choose from. Practically all of the world's BEST ARTISTS, such as Caruso, Melba, Farrar, McCormack and many others have contracted to make records only the Victor, because they realize the Victor only can do justice to their talent.

And owing to enormous output, considered to be many times as great as nearest competitor, Victrolas and Victor Records are priced lower than other talking machines and records.

For instance, many artists such as Reed Miller, Elizabeth Wheeler, Reinald Werrenrath, Neapolitan Trio, are placed on Double-faced Records selling at 75c, which me ans each selection is priced at 371/2c each. Come to our demonstrating rooms or let us know and we will have one of our salesmen call on you.
